WHAT’S UJYC?
Hosted at UCL (University College London), one of the world top 10 universities, the UCL-Japan Youth Challenge (UJYC) brings together pre-university students from the UK and Japan in a 10-day summer school programme.

WHAT’S ON
The UJYC summer school provides opportunities to become aware of and discuss international issues, and also develop skills in communicating to large diverse audiences.

LECTURES
Many of the world leading researchers will speak on a range of topics from science to the humanities. Students will be encouraged to ask as many questions as possible. The lectures are a fantastic taster of university style learning; you may find which course you wish to enrol.

GRAND CHALLENGE WORKSHOP
Supported by the UCL Grand Challenges, cross-disciplinary research initiatives at UCL mixed groups of 8-10 students will discuss key world problems and present their findings to the public. This will stimulate the interest of the students in global and social issues. For details visit: www.ucl.ac.uk/grand-challenges

HISTORY
This annual event was established in 2015 to celebrate the 150th anniversary of the Choshu Five and the Satsuma 19 students’ arrival at UCL. Choshu Five were the first Japanese students who studied in a UK university, and upon return they played leading roles in modernising Japan. Since then, UCL and Japan have been enjoying close ties.

Students from both countries will engage in a series of topic-focused activities including workshops, lectures and a symposium. Our highlight is the Grand Challenge Workshop where you will discuss “Accessibility for All”, a topic important in our society today. This workshop will be accompanied by a symposium where high-profile UCL academics will give lectures and you will also give presentations in front of the public. You will be exposed to university experience with Japanese students.
