

INTERESTED IN JAPAN?

You will have many opportunities to engage in the Japanese language and culture through interacting with Japanese students every day. You can also take Japanese language lessons.

DUKE OF EDINBURGH’S AWARD

Your activity in the UJYC may allow you to apply for the Gold Duke of Edinburgh’s Award, Residential section.

This **prestigious award** will help you stand out in future applications for university and for employment.

For details visit:

WHAT'S UJYC?

Hosted at UCL (University College London), one of **the world top 10 universities**, the UCL-Japan Youth Challenge (UJYC) brings together pre-university students from the UK and Japan in a 10-day summer school programme.

Students from both countries will engage in a series of topic-focused activities including workshops, lectures and a symposium.

Our highlight is the Grand Challenge Workshop where you will discuss “**Accessibility for All**”, a topic important in our society today.

This workshop will be accompanied by a symposium where high-profile UCL academics will give lectures and you will also give presentations in front of the public. You will be exposed to university experience with Japanese students.

WHAT'S ON

The UJYC summer school provides opportunities to become aware of and discuss **international issues**, and also develop skills in communicating to large diverse audiences.

LECTURES

Many of **the world leading researchers** will speak on a range of topics from science to the humanities. Students will be encouraged to ask as many questions as possible. The lectures are a fantastic taster of university style learning: you may find which course you wish to enrol.

GRAND CHALLENGE WORKSHOP

Supported by the UCL Grand Challenges, **cross-disciplinary research initiatives** at UCL mixed groups of 8-10 students will discuss key world problems and present their findings to the public. This will **stimulate the interest of the students** in global and social issues.

HISTORY

This annual event was established in 2015 to celebrate **the 150th anniversary of the Choshu Five and the Satsuma 19** students' arrival at UCL. Choshu Five were the first Japanese students who studied in a UK university, and upon return they played leading roles in modernising Japan. Since then, UCL and Japan have been enjoying close ties.
